WORK EXPERIENCE

Tribond Infosystem PVT. LTD

Feb 2023 - present

- Led the end-to-end development of a full-stack web application for sentiment analysis of news articles using Node.js, Express, and React.js.
- Implemented real-time push notifications using Firebase Cloud Messaging and OneSignal, optimizing user engagement.
- Built and integrated real-time chat functionality using WebSockets for a responsive communication interface.
- Developed PDF reports dynamically from backend data, supporting data export and reporting needs.
- Managed numerous RESTful APIs with secure authentication and authorization flows (JWT, OAuth).
- Oversaw the creation and maintenance of a comprehensive lab module in a health management system, ensuring high code quality and scalability.
- Served as backend lead for the **Billu Care** live project, utilizing Node.js, React, and GraphQL, delivering on-time project milestones.
- Designed and executed bulk operations, such as cleaning up obsolete user collections from the database, improving system efficiency.
- Integrated React Context API for seamless state management across the application.
- Utilized Sequelize ORM extensively for MySQL database operations, optimizing complex queries and schema migrations.
- Reduced reliance on costly third-party API calls by implementing smart caching and internal services, decreasing operational expenses.
- Mentored junior developers and coordinated cross-functional tasks to ensure efficient development pipelines.

SKILLS

- **Frontend:** HTML, CSS, Bootstrap, React.js, Next.js, Redux, JavaScript
- **Backend:** Node.js, Nest.js, Express.js, GraphQL, MySQL, MongoDB
- **Tools & Platforms:** Git/GitHub, BitBucket, FileZilla
- **Concepts:** DSA (Data Structures & Algorithms), MVC architecture, RESTful APIs

EDUCATION

Master of Computer Application

Jul 2023 - Present

Indira Gandhi National Open University

Relevel 's Backend Development Course

Feb 2022 - Feb 2023

Covered programming fundamentals, backend development with Node.js and Express.js, and database concepts (SQL and MongoDB).

Bachelor of Science (PCM)

Jul 2016 - May 2019

Vikram University, Ujjain

PERSONAL PROJECTS

BLOG POST -

[Backend Source Code](#)

[Frontend Source Code](#)

- Developed a blogging app enabling users to post, update, and comment on blogs with captions and images.
- Implemented a popular post feature to enhance user engagement.
- Utilized Node.js, Express.js, React.js, HTML, CSS, Bootstrap, MySQL, and Git.

CRM APPLICATION - [Source Code](#)

- Created a CRM app for centralized lead management and customer interaction tracking.
- Built the backend with Node.js, integrated MongoDB for data storage, and utilized sessions for authentication.

JOB-BOARD-APPLICATION - [Source Code](#)

- Developed an MVC-based Job Board app for job posting, updating, and application management.
- Implemented job application functionalities and user management.
- Built the backend using Node.js, integrated MongoDB (Mongoose ORM), and utilized sessions for authentication.

CERTIFICATIONS

- Nptel Certification: Programming in Java 
- Relevel 's Backend Development Course
